

Rapid Feedback Integration

This document demonstrates how continuous feedback was gathered and applied throughout the course development using Agile methodology.

1. **Feedback Channels Used:**

- Weekly stakeholder Zoom sessions
- Google Form check-ins after each module draft
- Peer review comments on shared Storyline prototypes

2. **Integration Process:**

- Logged all feedback by module and theme
- Applied changes within 48 hours in each sprint cycle
- Summarized key lessons learned and improvements made

3. **Examples of Feedback Impact:**

- Adjusted pacing in Module 2 based on pilot group feedback
- Replaced static slides with interactive simulations for decision-making scenarios
